Hi Mike,

In the attachment, I only left the sections that included R5's most recent edits since your last review. I deleted all other sections.

Rhonda—

Do you have a version that shows what's new in the 3.2.5 and the 3.2.9.3 sections? That's probably the only way I can review these bits quickly.

Importance: High

Hi Mike,

Scott provided me some comments on the RTC last week, and as a result we worked with the regions as we made some additional edits. I wanted to bring to your attention specifically R3 comments and responses, as well as the Marshall, WV area (Section 3.2.9.3). If possible, can you please review those areas and provide me any feedback you have by noon tomorrow (Tuesday)? I know it's a short turnaround, but I only ask because we could get signature as early as tomorrow and we will need this RTC to go into the docket.

Also, I'm wondering if we need to write a comment and response regarding the extension requests (section 3.1.4). I struck it out, but do you think these are significant comments that should be addressed in the RTC (See also Scott's Comments). If so, I'll have to work on a response tomorrow.

FYI...Region 5 also made a few edits to their section (3.2.5), nothing major, but just in case you want to take a look at that, I'm making you aware.
